## ANNUAL WATER QUALITY REPORT

Every year the Sherman DPW provides it's customers with an Annual Water Quality Report (AWQR) to let them know how our water quality stacks up against established federal and state drinking water standards. We encourage you to review this report as it provides details about the source and quality of your drinking water.

In an effort to be more environmentally responsible we are no longer printing the AWQR, but have made it available on our website at [www.shermanny.org](http://www.shermanny.org) on both the homepage & DPW page. You can also go directly to the 2018 AWQR at :

## EARLY CHILDHOOD EDUCATION/CHILDCARE

Have children or grandchildren 3 years and younger? Would you like early learning-childcare to be provided right here in Sherman for children 0-3 years of age? The first 1,000 days are the most critical with 80% of brain development occurring during the first 3 years of life. Our community wants to help support and foster this growth in our young children. Help us by taking a short survey:
